## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Heyer.

Heyer discloses a fluid coupling having a pump (3) including a pump shell and a plurality of impellers, a turbine (4) including a turbine shell and a plurality of runners, and a baffle mechanism including a first annular baffle plate (7) having a plurality of first openings (76), a second annular baffle plate (78) having a plurality of second openings (77), and a centrifugal operating means (6).

### ***Allowable Subject Matter***

Claim 2 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
